Self-motivated Web Developer with >6 yrs of experience working on multiple projects. Passionate and hardworking with a penchant for meeting deadlines. Interested in roles indulging best practices and offering diverse customer projects.

WORK EXPERIENCE

Fullstack DEVELOPER

May 2023 - Present

Tanaakk

- Involved designing in web pages using HTML 5, CSS3, JavaScript, Bootstrap, SASS, LESS, ReactJS, Redux
- Extensively used React JS components, Forms, React-Bootstrap, Events, Keys, Router, Animations, Redux and Mobx
- Expertise in UX-Library comprised of Button, Checkbox, Input, Icons, Toggle Button, Dropdown, Multi-Level Dropdown and some more
- Worked closely with the Back-End team to display data using the Custom Components, library Components, and Redux, Mobx
- Configured webpack automation pipelines using Jenkins to monitor CI/CD process
- Followed agile and used GIT, AZURE as bug tracking tool to identify and monitor progress
- Developed RESTful APIs using Node.js and Express to support frontend features and business logic
- Integrated MongoDB and PostgreSQL for data storage and retrieval, including writing complex queries and data modeling
- Implemented authentication and authorization using JWT and OAuth for secure user access

Fullstack DEVELOPER

Apr 2021 - Apr 2023

BAP Software

- Involved designing in web pages using HTML 5, CSS3, JavaScript, Bootstrap, SASS, LESS, ReactJS, Redux
- Extensively used React JS components, Forms, React-Bootstrap, Events, Keys, Router, Animations, Redux and Mobx
- Developed custom calendar components
- Expertise in UX-Library comprised of Button, Checkbox, Input, Icons, Toggle Button, Dropdown, Multi-Level Dropdown and some more
- Worked closely with the Back-End team to display data using the Custom Components, library Components, and Redux, Mobx
- Configured webpack automation pipelines using Jenkins to monitor CI/CD process
- Followed agile and used GIT, AZURE as bug tracking tool to identify and monitor progress
- Developed RESTful APIs using Node.js and Express to support frontend features and business logic
- Integrated MongoDB and PostgreSQL for data storage and retrieval, including writing complex queries and data modeling
- Implemented authentication and authorization using JWT and OAuth for secure user access

ReactJS DEVELOPER

Feb 2020 - Mar 2021

ICOSOFT

- Build reusable code and libraries for future use
- Design dynamic and multi-browser compatible pages using HTML5, CSS3, SASS, REACTJS
- Define new validations through REACTJS for the form field validation implemented through HTML5
- Implemented latest EcmaScript6 (ES6) features to enhance code standards and maintainability
- Extensive usage of Gradle & webpack to build Microservices, UI components and pipeline it smoothly for CI/CD using Jenkins
- Built custom components for UX-Library consisting Accordion, Filters, Dropdown, Carousel, Button, Checkbox, Input, Icons
- Strong knowledge of version control tools like GIT

ReactJS DEVELOPER

Apr 2018 - Jan 2020

ANOTHEMES

- Fluent in using, installing wordpress, programming themes, plugins, customizing as required
- Worked with WPML, Woocommerce, ACF pro, SEO,...
- Connection between CMS wordpress and software via REST API
- Maintain and add new features for internal systems to improve work efficiency.
- Develop high-performance customer-facing e-commerce applications using ReactJS, Redux-saga, React Hooks, React-Router, JavaScript, HTML5, CSS3, SASS, Bootstrap
- Built custom components for UX-Library consisting Accordion, Filters, Dropdown, Carousel, Button, Checkbox, Input, Icons
- Developed custom API class to handle all CRUD transactions, JWT token management and implemented interceptors to embed custom headers
- React-Hooks are used exclusively to handle application lifecycle processes
- Work closely with the customer to establish system specifications and design. Used photoshop, XD and figma to collaborate with UX
- Effective use of native HTML elements and custom tags to enhance SEO optimization and application ADA compliance feature
- Implemented CSS Box Model and styled web pages using CSS preprocessor SASS and effectively used mixins, functions, custom grid systems, grid-area concepts and flexbox for fluid-responsive application

EDUCATION

Bachelor of Information Technology

Jan 2015 - Jan 2020

Vinhuniversity

information technology

PROJECTS

Zalo mini app - Booking Car 5 mem

FE

- Build the base for the project, specify the technology
- Develop all features about login, booking, ...
- Using Reactjs + Redux Toolkit + typescript

BE

- Build the base for the project, specify the technology
- Develop all features about login, booking, ...
- Using Nodejs + ExpressJS + postgresSQL + typescript

App

- Build the base for the project, specify the technology
- Develop follow booking for user from create to completed
- Develop follow receive booking for driver from awating to completed, receive noti from server
- Using Zalo mini app + Reactjs + typescript + recoil

livestream system 10 mem

Leader

FE

- Coding system manager user, livestream sdk, ...
- Build the base for the project, specify the technology
- Review the source
- coding custom hook
- FE using ReactJS + redux + redux toolkit + react-hook-form + tailwindcss
- Using graphql build features about: query, mutation

BE

- Design and implement backend architecture for livestream system
- Build features for user management, livestream sessions, access authorization
- Integrate livestream SDK at the backend layer if data or authentication processing is required
- Use Node.js (Express) as the main backend platform
- Design and query data with PostgreSQL, use Prisma or Knex library for ORM/Query Builder
- Build API with GraphQL, use features: query, mutation, middleware
- Implement user authentication mechanism (JWT or session), role-based authorization
- Optimize query performance and ensure data integrity

Hrms - manager system attendance 25 mem

Fullstack Developer

FE

- Coding system manager employee, attendance, salary,...
- Build the base for the project, specify the technology
- Support junior developers to complete the task and review the source
- coding custom hook
- FE using ReactJS + redux + redux toolkit + react-hook-form + tailwindcss

BE

- Build RESTful API for HR management, timekeeping, payroll, user authorization Handle authentication and authorization using JWT
- Optimize query performance and API security
- Write business logic service: calculate work by shift, day off, calculate salary by custom formula
- Use Node.js + Express combined with Sequelize ORM
- Implement API logics, validation, error handling

ICUCO - manager student 30 mem

Reactjs Developer - Leader team FE

- Coding calendar like google calendar without using 3rd library
- Build the base for the project, specify the technology
- Support junior developers to complete the task and review the source
- work directly with customers on new features (Japan Client)
- coding custom hook
- Maintaince source
- using ReactJS + Mobx + formik + yup + antd + scss + styled component

- Building azure function using nodejs build serverless connect to aws using graphql

TMS - manager driver and buckets 15 mem

Reactjs Developer

- using google map to handle driver, locate the terminal on the map
- coding CRUD employee and user
- Support junior developers to complete the task and review the source
- coding custom hook
- Maintaince source
- using Reactjs + Mobx (global state) + formik + yup + antd + less

E-Com 8 mem

Reactjs Developer + Nodejs Developer

FE

- Build the base for the project, specify the technology
- coding feat login + register using jwt, product + cart,..
- Support intern and fresher developers to complete the task and review the source
- using ReactJS + redux + redux-toolkit + typescript

SKILLS

Main Skill:

Reactjs, Redux, Mobx, Zustand

RTK Query, React Query

HTML (PUG)

CSS (less, scss,sass)

Javascript

Typescript

Jquery

GIT

GraphQL

Apollo Client

More Skill:

NextJS

Flutter

React Native

Nodejs - expressJS

MongoDB, Mongoose

Wordpress Developer

AWARDS

Best employee of the year by Livestream

Jan 2024

2024

Best employee of the year by ICUCO

Jan 2022

2022

Best project of the year by ICUCO

Jan 2022
